ADDITIONAL INFORMATION:

This Volunteer Camp has been functioning for about 20 years (with the exception of the two last ones due to the COVID-19 pandemic) with very satisfactory results. In these camps there have been young volunteers from many different European countries, some Asian ones and America, apart from young volunteers from every community in Spain.

In the latest years, the main activity has been done at the place called "The Land of the Games", a territory located at a natural spot and conditioned for the development of educational and free time activities. Throughout the next years, the volunteers have designed attractive playing spots and have built different facilities by using traditional and bioconstruction techniques.
