BREVE DESCRIPCIÓN DEL TRABAJO (en inglés- máximo 4 líneas)

The Monleras International Work Camp is the one which has the longest non-stop trajectory in Castilla y León: more than fifteen years in which a vast amount of experience has been gained. Not only has it been successful in introducing a complete and varied activities programme, but it has also bound together an exceptional team of individuals, it has generated endless links between volunteers coming from the most unalike regions and countries and interacted among the local population in a natural and surprising way.

It offers a really varied activities programme and experiences to everyone able to take part in it: working in buildings for educational purposes in "The Land of the Games", using traditional and bio-construction techniques; the opportunity to get to know first-hand rural life and culture; taking part in unforgettable experiences involving community animation with children, youngsters and adults from the village; teambuilding days, excursions and nature walks, cultural performances, events and community encounters designed and prepared wholeheartedly. Monleras is a small village open to the world, a living example showing that a different rural world is possible

DESCRIPCIÓN DEL CAMPO

(Descripción del trabajo / actividades complementarias - tiempo de ocio / Alojamiento – Alimentación / Localización / Instrucciones sobre el viaje / Punto de encuentro / Idiomas del campo / Cosas a llevar – Equipo aconsejable / Objetivos del Campo / Perfil – Compromiso de los participantes - Normas de régimen interno / Contactos / Teléfono de emergencia / Información complementaria).

(POR FAVOR, RELLENE EN INGLÉS SÓLO LOS APARTADOS QUE NECESITE PARA DEFINIR EL CAMPO)

ORGANIZING AND COLLABORATING ENTITY (

Monleras Town Hall. The village residents and municipal associations will collaborate too |

DESCRIPTION OF WORK (concreta, clara y precisa según Proyecto y no menos de 6 líneas):

-The main task will consist of finishing a traditional metal workshop at the place known as "The Land of the Games", started on last year's work camp. Traditional bio-construction techniques will be applied at the finish: lime rendering and plastering at the walls, paved floor, wooden and iron doors and windows, etc. Additionally, a pair of bellows will be restored as well as other ancient tools to make the metal workshop work with educational aims...

-Apart from that, maintenance works will be carried out at other facilities and games built in previous years, rebuilding elements damaged by the weather and the passage of time: replacement of the vegetal roof on the hut made with straw bales, restoration of damaged elements at the labyrinth, etc.

-Bio-construction criteria, traditional techniques and eco-efficient technology will be used in every construction.

The young volunteers will acquire competences in self-construction, bio-construction and sustainability; they will learn techniques to work with stones, lime, iron, wood, vegetal roofs and decorative arts; they will learn to use local and recycled materials.

This activity will be carried out in the mornings, between 09:00h and 13:30h. The volunteers will be distributed into smaller groups with specific tasks and they will be made to take turns and try the different jobs. From 11:30h to 12:00h there will be a small break to have a snack. |

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

| The Young volunteers will collaborate in different socio-cultural animation activities and rural dinamization, supporting the different municipal associations and taking advantage of the opportunities offered by the village. Among others, they will collaborate in the following activities aimed at the local population:

- Animation and free time activities, aimed at children, teenagers and youngsters. These are expected to favour the integration of the volunteers with the local population as well as contributing to the animation of children and youngsters during the summer nights by participatory free time activities.

- Cross-generational dinamization activities. They seek to favour the community encounter and cross-generational participation. Among others, we remark a traditional games session, the International Dinner, to which host families are invited; Intercultural goodbye festival from the volunteers of the camp, with musical, theatre or dancing performances, etc.

- Cohabitation at a family day: During a day, the young volunteers from the work camp are distributed among different families from the village willing to take them in and share with them ordinary work (taking care of the vegetable garden, looking after sheep...) and the meal.

- Agricultural and craftwork fair. It takes place on the last Sunday of July at the main square and atrium of the church. It is an important event for the village which gathers a great number of craftspeople and producers from the region, workshops and different activities.

In the same way, varied activities will be offered for the group of young volunteers, such as the following ones:

- Excursions to the "Sierra de Francia", Salamanca and "Arribes del Duero" (Portuguese border)

- Activities to get to know life and culture in a rural village:

- Activity 1: Get to know the village and its inhabitants: interacting with the village

- Activity 2: Get to know the way of life: ecological chicken farm, cattle farming and traditional cheese

factory.

- Environmental hike: Get to know the natural surroundings by means of a guided route along the stream as far as the mill. It is complemented with the view of a documentary at the Interpretive Centre.
- Night animation activities: talks at the terraces in the village, a musical night, etc., accompanied by the youngsters from Monleras.
- Leisure activities: afternoons by the lake, swimming pool in "Sardón de los Frailes".
- Workshops: leather workshop, workshop to make soap out of recycled oil (both of which will be taught by craftsmen from Monleras), audiovisual workshop, recording and editing of a "lipdub".
- Programme of cultural performances included in the Festival of Theatre and Arts of Monleras.
- Different sports activities: canoeing at the lake, sports with the youngsters from the village (frontenis, basketball, football), popular Monleras race.
- All the complementary activities will take place mainly in the afternoon (workshops, excursions, activities to get to know life and culture in a rural village, sports...), between 18:00h and 20:30h. At night, between 22:30 and 24:00h, night activities will take place, as well as the cultural activities included at the Festival of Arts and Theatre of Monleras

ACCOMMODATION/FOOD (CELIACOSS, VEGETARIANOS, OTRAS CULTURAS):

ADDITIONAL INFORMATION (importante en señalar todos aquellos aspectos que no se han definido como: año que se empezó el Proyecto, resultados, redes sociales para informarse y poder opinar y colgar fotos, si se tiene un blog donde se puede visualizar la actividad diaria sobre todo para los padres de menores voluntarios, otros):

The Monleras International Work Camps have been taking place for more than 15 years and their development and working has been really satisfactory. In these camps there have been young volunteers from many different European countries, some Asian ones (Turkey, Korea...) and America (Canada, Mexico...), apart from young volunteers from every community in Spain.

During the last years, the main activity has been focused on the so-called "The Land of the Games", a space in a natural location prepared for the development of educational and leisure activities. In the following years, the volunteers have designed attractive traditional games and have built many facilities using traditional and bio-construction techniques, such as a shed with straw bales, a place with an oven, a dry toilet, a traditional "chozo", etc.
